\*\*\*At Russell School, we are excited to have one-to-one student Chromebooks for every student at the school. With the many programs and activities we have planned, some require sound to maximize the educational benefit. Our school has purchased enough headphone sets to run our program, but many students are uncomfortable sharing headphones and some don't like the large over-the-ear style we have available. Students are welcome to purchase their own headphones and keep them at school if they are more comfortable doing so. Personal headphones will not be shared between students.
